

# FRIENDS OF EMMET

Friends Of Emmet (F.O.E) are originally from Dublin, Ireland, but now based in Los Angeles CA.

F.O.E. will release *State Of Mind* in 2012; the album will consist of eleven songs, all of which have been licensed to MTV.

One of the tracks, "Hero," will be featured in the independent movie

"The Saving." Another song, "Coming Apart," is a tribute to Kevin Hines, who attempted to take his own life at the young age of 19, yet survived jumping off the Golden Gate Bridge.

Hines is one of the few to ever survive the suicide plunge from 245 feet above the water. Upon hearing about Hines' story, the band found themselves inspired by the turn of events and wrote "Coming Apart" in his honour.

Friends Of Emmet are receiving airplay support in multiple countries including America, Canada, Germany, Italy, Spain, Ireland, Australia and the UK.
